MILLS WHETTING HIS BOWIE

He Wants Speaker Crisp's Scalp and with Bynum's Assistance May Get It.

The Georgian to Be Sacrificed Partly in Revenge for Insults to the Texas, but Mainly Because He Is Not a Free Trader.

Theorist Wilson, of West Virginia, to Be Made Ruler of the Next House.

In Which the Democrats Will Have a Majority Over All of \$2—An "Administration" Tariff Bill to Be Rushed Through.

SPEAKER CRISP MUST GO.

Roger Quarles Mills Has Said So, and the Texas Means Business.

Special to the Indianapolis Journal. WASHINGTON, Nov. 26.—For will soon begin to fight in the contest for the speakership of the Fifty-third Congress. It is not going to be a re-election of the present incumbent by default, as has been until to-day generally expected. One Roger Q. Mills, of Corsicana, Tex., now a United States Senator, has whetted his knife for a twelve-month for the scalp of one Charles Frederick Crisp, of America, Ga., and it looks as though there might be a hirsute-fisted fellow dancing at his heels when the smoke of the battle has cleared away.

It will be recalled that when Crisp was made Speaker he paid a political debt to Springer, of Illinois, by making him chairman of ways and means, a position which public opinion accorded to Mr. Mills. Speaker Crisp went further and offered Mills the chairmanship of commerce, an inconsequential place, which the vanquished aspirant for the speakership declined without thanks. Mr. Mills regarded the tender as a well-planned insult, and it is probable that in such a conclusion he was not over-sensitive. He has since said that a day would come, and Crisp would go to grass.

It is well known that Speaker Crisp's plan of "reforming the tariff" is not that of Mr. Mills, nor is it that of a majority of the Democrats elected to the Fifty-third Congress, and still more important, it is not the plan of the man who will go into the White House on the 4th of March. Acting upon the pretext that there must be a speaker who is in accord with the administration and the party upon the important subject of revising the tariff, Senator Bynum, of Indiana, who is his most active and determined lieutenant, and shortly a conference of the old Mills standard-bearers will be held for the purpose of agreeing upon a "real tariff reformer" for the speakership, who will be pushed in opposition to Mr. Crisp. As Crisp is a Hill man, it is taken for granted that Cleveland will advocate the election of some other man than Crisp to the speakership. The fight will be bitter and determined, and it looks as though Mr. Crisp would have very hard sledding during the next few months.

Mr. Wilson, of West Virginia, who represents the collegiate theories of free trade, has already been named to supplant Springer as chairman of the ways and means committee in the next House, but it now seems probable that Mr. Wilson will be selected as the Cleveland candidate for Speaker. Mr. Wilson would be the ideal candidate of all the elements of the democracy, and of the larger element of the newsmen, whose sympathy he has won by his speeches to the Manhattan Club dinner in New York and by his subsequent letter warning office-seekers not to hunt him. He was shooting ducks. Mr. Wilson is the best representative of the so-called "scholar in politics" of the Democratic party contains, and the fact that he has actually declined within a year a college presidency only adds to his popularity. He is a candidate for the speakership. His candidacy would mean the abandonment of the amendment of the tariff by separate bills, such as those passed by the last House under the Crisp-Catchings policy and now locked up in the Senate finance committee. He would substitute a general tariff revision along the whole line, including not only such raw materials as wool, but cutting down the duties on steel rails, cutlery and manufactured woollens, and involving in short a radical reduction of the tariff schedule. It is in this idea that opposition to the Crisp's re-election will find its strength, and it only remains for Mr. Cleveland to abandon duck-shooting for politics to show how much force the movement will have.

WRECKED BY AN EARTHQUAKE.

The City of La Union, in San Salvador, Almost Destroyed—Many Persons Killed.

SAN FRANCISCO, Nov. 26.—The Evening Bulletin has advice from La Union, San Salvador, by the steamer City of Sydney, that an earthquake has laid low nearly all the houses in the city, and that those left standing had their walls so cracked that it was not safe to remain in them. The people are living in tents and are in fear of further disturbances. A passenger on the steamer City of Panama, which called at La Union on the way up, and which was subsequently passed by the City of Sydney, writes that he went ashore and viewed the ruins. The destruction was complete. The residents of the city were almost driven to a frenzy, and processions were parading the streets with ringing bells, headed by priests praying for an abatement of the disturbances. Many persons were killed and many seriously injured.

WILL IT BE FREE TRADE?

Democrats Propose to Pass an "Administration Tariff Bill" as Soon as Possible.

Special to the Indianapolis Journal. WASHINGTON, Nov. 26.—Some far-seeing Cleveland Democrats have proposed a plan by which they hope to get their party in Congress together on a tariff bill. It is to have the treasury officials, as soon as they are installed under the new President, begin the framing of "an administration tariff bill," the work to be under the general direction of President Cleveland and the leading Democrats in Congress. When Congress comes together the measure is to be carried on in caucus, reported to the House through the committee on ways and means and passed with as little alteration as possible. They believe this will be the only way in which the party can be gotten together upon the tariff and that it will insure harmony and speedy action.

WANTS IMMIGRATION SUSPENDED.

Senator Chandler Thinks the Bars Should Be Put Up for Five Years.

Special to the Indianapolis Journal. WASHINGTON, Nov. 26.—Senator Chandler, of New Hampshire, chairman of the Senate committee on immigration, and who has given much time to careful study of the immigration problem, declares that an absolute suspension of all immigration for a period of at least five years would be a good thing for the United States, and his declaration is attracting much favorable comment in congressional circles. Treasury officials contend, however, that many of the immigrants are the best of the country, and that they are not a burden upon the country. They are not the "Kidd" who are a burden upon the country, but they are a great relief to it, made by practical politicians who have no fear of regard for anything when the interests of party are concerned or individual interests are involved in an election. The Democrats do not propose legislation upon the subject of immigration.

THE NEXT HOUSE.

Democratic Majority Over Republicans and Populists Sealed Down to 82.

WASHINGTON, Nov. 26.—Since the publication, Nov. 19, of the tables showing the composition of the next House of Representatives, and establishing a majority of 82 over the combined forces of the Republicans and Populists, the Democratic congressional committee has rested content, and has not tried to revise its list, which at the time of preparation agreed with those made by the Clerk of the House. Clerk

Kerr has also abandoned any further tabulation for the present, and has gone out of town. But, at the Republican congressional committee rooms, Captain McKee has been doing some quiet figuring with a purpose of scaling the majority down somewhat, and he claims to have succeeded. The figures used by him as a basis of calculation, he says, are collected in all but a very few instances from the returns made to the Secretary of State of the various States, and the table will be printed as the official statement of the Republican congressional committee. The two Rhode Island districts where there was no election have been omitted from the calculation, which results as follows: Democrats elected, 218; Republicans elected, 128; Populists elected, 8, leaving the Democratic majority over Republicans and Populists combined, 82. Captain McKee's figures by States are as follows:

State	Dem.	Rep.	Pop.
Alabama	9	1	1
Arkansas	6	1	1
California	4	3	1
Colorado	1	1	1
Connecticut	3	1	1
Delaware	1	1	1
Florida	1	1	1
Georgia	11	1	1
Idaho	1	1	1
Illinois	12	10	1
Indiana	11	2	1
Iowa	1	10	1
Kansas	2	3	3
Kentucky	10	1	1
Louisiana	4	4	1
Michigan	4	8	1
Minnesota	6	1	1
Mississippi	3	10	1
Missouri	7	1	1
Montana	13	1	1
Nebraska	1	3	2
Nevada	1	1	1
New Hampshire	1	1	1
New Jersey	6	2	1
New York	20	14	1
North Carolina	9	1	1
North Dakota	10	1	1
Ohio	10	11	1
Oregon	10	2	1
Pennsylvania	10	20	1
Rhode Island	7	1	1
South Carolina	1	2	1
South Dakota	1	2	1
Texas	13	1	1
Vermont	10	2	1
Virginia	10	2	1
Washington	10	2	1
West Virginia	4	1	1
Wisconsin	6	10	1
Wyoming	1	1	1

Of the four Territories, Arizona, New Mexico and Utah elected Democratic delegates and Oklahoma a Republican delegate.

MINOR MATTERS.

The Secretary of the Interior Says \$166,831.350 Will Be Required for Pensions.

Special to the Indianapolis Journal.

WASHINGTON, Nov. 26.—The Secretary of the Interior to-day transmitted to the Secretary of the Treasury the estimates required to pay pensions for the next fiscal year. The sum of \$166,831,350 will be necessary to pay pensions on account of the army and navy, including the maintenance of pension agencies, clerk hire and other incidental expenses. Of this amount, it is estimated that \$165,000,000 will be paid directly to pensioners. In addition to the estimate of \$147,757,51 for the fiscal year ending June 30, 1893, a deficiency of \$18,083,841 is asked. During the first fiscal year of the present administration, an estimate of \$80,000,000, in round numbers, was sufficient to pay pensions and other incidental expenses.

Rosenberg's View of the Civil-Service Law.

WASHINGTON, Nov. 26.—General Rosenberg, Register of the Treasury, in his annual report to the Secretary of the Treasury, makes the following remarks in regard to the operations of the civil-service law:

Among the betterments of the service undertaken during the year, the most important are those initiated by the President's order of Dec. 4, 1891, which aim to put each clerk's efficiency record before the eye of his superior. To encourage the best elements of civil efficiency record, some compensation was required, but within two or three months the heads of divisions overcame the chief difficulty in their markings and were compelled to give daily attention to those facts and mental processes which are necessary elements of any judgment concerning a clerk's official merit. This schooling of the minds of division or acting chiefs is going on successfully in this bureau, and will soon make a clerk's monthly record a portrait of his official work drawn by himself.

Good Men Resign Their Offices.

WASHINGTON, Nov. 26.—The resignations of Maj. W. S. McGinnis, assistant superintendent of the railway service, and of Messrs. C. W. Fisher and N. W. Leonard, postoffice inspectors, were handed in to the Postoffice Department to-day. Their services have for some time been in demand for the United States Postmaster-General's office.

Col. S. A. Whitfield, lately first Assistant Postmaster-General, is now Western manager, with headquarters at Chicago, and they have finally yielded to the pressure. They are, it is said, at the department, an important loss to the department, and are expected soon.

Not Contract Laborers.

WASHINGTON, Nov. 26.—Acting Secretary Spaulding to-day issued an order for the release of the sixteen Belgian glass-blowers who have been detained at New York since the 10th instant on suspicion of being "contract laborers." This action is the result of a careful investigation, which disclosed the fact that there is no evidence whatever of a violation of the law in the case of a single one of the men under surveillance. It was originally held that these men were contract laborers, and preparations were being made for their return to Belgium last week, when they were arrested as the instance of the Belgian minister, for the purpose of having a rehearing. The result demonstrates the wisdom of the delay.

War Vessel for the Papal Relics.

Special to the Indianapolis Journal.

WASHINGTON, Nov. 26.—Notwithstanding opposition in the Navy Department, it is certain that a navy vessel will be assigned the duty of conveying to this country the exhibit of relics relating to the discovery of America loaned by the Vatican from its museum for the world's fair. Unless some well-founded reason should intervene, the United States cruiser Newark will be given the assignment. It has also been practically decided that the United States gun-boat Bennington shall convey the Columbus caravels from Havana to America.

General Notes.

Special to the Indianapolis Journal.

WASHINGTON, Nov. 26.—Mrs. and Miss Nebeker will receive their friends during the winter in their private parlors at the Cochran.

Mr. and Mrs. W. D. Owen will be at the Cochran after Jan. 1.

Senator and Mrs. Calvin S. Price will entertain handsomely in the Cochran House, which they have leased and made it a beautiful palace.

The funeral services upon the remains of Mrs. John E. Reall (nee Mary Louder, formerly of Indianapolis) will be at the Church of the Covenant, in this city, at 3 o'clock to-morrow afternoon. The interment will be private.

Within the next few days about thirty of the fifty-two specialists of the General Land Office will be dropped from the rolls because of insufficient appropriation. For the same reason ten of the 150 special agents of the Pension Office have been recalled from the field, and probably as many more will shortly be notified to report at the office at Washington. About seventy clerks in the Census Office have been dismissed, and it is expected that before the 1st of January this number will be materially increased.

Mrs. M. A. Dorchester, special agent for the Indian school service, has traveled with her husband almost continuously for three and a half years past, visiting Indian schools and reservations. The testimony contained in her annual report, just rendered, as to the improvement in the Indian school service, is highly gratifying.
